

A SPRING has been discovered at Richmond, Michigan, which possesses the wonderful power of making hair grow where hair never grew before. If the hair appears to the throne of England does not send over and purchase or confiscate this spring before it has reached the Summer of its fame it will be most-sought-after bubble in the country. One application is said to produce hair on a bald-headed Saratoga trunk. All a man whose head has been harvested by the reaper Time has to do is to dip his cocoon in the spring and await developments. One dip brings a fine silky down; a second, a stronger growth. Upon the third immersion the bald-headed person, looking in the glass, takes himself for an Albiou. All the railroad companies running to Richmond, Michigan, expect to make fortunes. Already a bald-headed train decorated with pictures of the *corps de ballet* has commenced running and there are more to follow. Eighty-eight is the bald-headed man's lucky year, and don't let us lose sight of it.

THE people of Austin are feeling very much more cheerful over the outlook for the Manhattan mine. The recent turn affairs has taken cheers them up and now the indications are that business will again get on its feet and prosperity return to the old town in the canyon. The *Reveille* of Saturday says:

Before the Chicago Creditors purchased the property from the lienholders as judgment creditors, on the 11th of January, all creditors and judgment debtors, to-wit, the Manhattan Company, had six months from the day of the Sheriff's sale to redeem. Now it is different. Since the Chicago Creditors stepped in and took the property from the lienholders by paying their liens, the judgment debtors, namely the Manhattan Company, and the Creditors have only 60 days from the day of the purchase, the eleventh of January, to redeem the property. After March 11th the Chicago Creditors will become the absolute possessors of the Manhattan property, and the Manhattan Company and the Western Creditors will lose the right to redeem. Instead of six months, we will have to wait only 60 days. It is a lucky provision for Austin. It works both ways. The Chicago Creditors will not have to wait by four months to secure absolute title to the property, and the other creditors will be compelled to redeem within 60 days from January 11th to get the property and make good their judgment. It hurries them up, and the faster it is settled so that the work can be resumed, the better it is for Austin.

THE Republican and Democratic Territorial Committees of Idaho have called a joint meeting in Boise City, on next Thursday. The object of the meeting is, irrespective of party, to put forth a plan to defeat the segregation of the Territory of Idaho. The people of Boise are about the only inhabitants of the Territory who strenuously object to the proposed division of Idaho, and they do so because they imagine that, should a division be made, the Capital will be removed from its present site. That is all they base their objection upon. The residents of all capital cities feel the same way; they are always fearful lest something occur by which the State House will be moved.

MR. HARRISON, an English reformer, says that 75,000 people are annually added to the population of London and that 25,000 of these come from other places—that is, they are not born in London. He apparently contemplates that one of these days nearly all the people of England will live in London. He proposes for their future welfare those reforms: Laws against excessive hours of labor, diminution of intemperance and the destruction of badly ventilated tenement houses. We call these things the eight-hour movement, the prohibition movement and the movement for tenement-house reform. Harrison means well, but he is a little slow.

In Carson a doctor reported that there was a case of small-pox next door to the school house. The next day he, upon examination, found it was a case of black measles instead of small-pox. Now it is reported to be on a simple case of measles. What disease has the doctor?—*Lyon County Times*.

A Boston woman has hit upon a novel scheme to make a living. She posts herself thoroughly upon the news of the day, and reads her notes to a class of wealthy women who are too lazy to read.

One-named Jim, the Plute who killed Andrew Klugegar at Willow Creek a year ago last August, has been taken to the State Prison at Carson, where he will be imprisoned for life.

NEWS OF THE DAY.

[PRESS DISPATCHES TO THE GAZETTE.]

THEIR COURSE INDORSED.

The Votes of Stanford and Stewart on Lamar's Confirmation. The Washington *Morning Post* of the 21st inst. prints the following editorial paragraph:

"If it were possible, which it probably is not, for anything to be meaner than the fight made on Mr. Lamar by the Republican press, the scurrilous attacks to which Senators Stanford and Stewart are now subjected would take precedence."

"It is not the intention of the *Post* to insult those gentlemen by the assumption or even intimation that their votes for the confirmation of Mr. Lamar need any defense. Time will vindicate their wisdom and patriotism and their vindication will be the condemnation of those Senators who allowed a brutal press to bully them to conduct the reverse of that which their original course had dictated."

"Of all the official acts that Senators Stanford and Stewart have ever performed, there are none upon which they will in the coming years look back with greater satisfaction than the votes they gave for Mr. Lamar; for they were brave enough to vote as they believed right, while the others skulked from their own sense of duty, terrified by a gale of senseless passion."

"To suppose that these two Republican Senators need a defense against the infamous calumnies that now assail them, would not only insult them but impugn the intelligence of the American people. It is the cowards who turn tail under fire, and it is they who need defense, and will continue to need it, for no defense is possible; and this vicious attack, this imputation of corrupt motives, this hurrying of villainous abuse at the Nevada and California Senators, is the tribute that moral cowardice pays to moral courage."

ALIEN PROPRIETORSHIP.

Senator Stewart's Substitute for the Bill He Previously Introduced.

WASHINGTON, Jan. 23. — Senator Stewart to-day reported from the Committee on Mines and Mining, as a substitute for the bill previously introduced by him, the following:

"Be it enacted, etc., that the Act entitled 'An Act to restrict the ownership of real estate in the Territories, to American citizens, and so forth,' approved March 3, 1887, be and the same is hereby amended by inserting after Section 4 of the said Act the following: 'Provided, however, that this Act shall not relate to or in any manner affect the title to mineral lands or mining claims in the Territories of the United States, which have been acquired or held under the Mineral Land laws of the United States, nor to mills or other reduction works or property used in the production of metals from said mineral lands, or claims, but as to all such mineral lands, mining claims, mills, reduction works and other property, the laws of the United States and of the Territories shall be and remain the same as though this Act had not been passed.'"

Indian War Claims.

WASHINGTON, Jan. 24. — Senator Hearst yesterday presented a proposed amendment to the Act for the benefit of the States of Texas, Colorado, Nebraska, California, Kansas and Nevada and Washington and Idaho Territories. The amendment provides that the claims authorized to be examined and reported to Congress shall include all sums which may be found due California for balances heretofore fixed or assumed by and remaining due to said State, arising on account of Indian war bonds, warrants, vouchers, etc., or any other form of indebtedness, issued by California on account of expenses incurred in the suppression of Indian hostilities.

The Chamber of Commerce Wants The Internal Revenue System Repealed.

New York, Jan. 24. — At a largely attended meeting of the Chamber of Commerce yesterday resolutions were adopted asking for the immediate repeal of the Internal Revenue system and favoring tariff on imports sufficient to meet the requirements of the Government only; and lastly deprecating any change in the present import duties on iron, iron ores and coal.

An American Divorce Held to be Legal in England.

LONDON, Jan. 24. — The Divorce Court to-day in the case of an English woman named Turner, who had married an American named Thomson, and who had her marriage annulled by an American court, the judge held that the woman having married an American and lived with him in America was entitled to the same laws as her husband, and therefore the divorce pronounced in America was binding in England without further decree from an English court.

The Preller Case.

WASHINGTON, Jan. 24. — The Supreme Court yesterday rendered a decision in the Maxwell-Preller murder case, dismissing the case for want of jurisdiction. The effect of this decision is to affirm the sentence of death pronounced by the Missouri State Court.

TELEGRAPHIC BRIEVITIES.

—S. A. Brown, who has held the position of Chief Clerk of the State Department at Washington for about fifteen years, will, it is said, retire, and be succeeded by J. Fenner Lee of Baltimore, who is at present Secretary of the United States Legation at Vienna.

—An American syndicate is seeking to gain control of the Mexican Mortgage Bank, an institution with \$50,000,000 capital. If the plan is carried out American capital will gain a predominance for the first time in Mexico, and will gain control of the exchange business between that country and the United States and Europe.

Jesse D. Carr's Way.

Jesse D. Carr, the well-known Northern California stockman, is a great sufferer from carbuncles. In extending its sympathy the *Adin* (Cal.) *Argus* indulges in reminiscences concerning him: One day, that he took up 100 acres of fine land in the name of one of his horses called Lee, whom he represented as a native-born American, and aged thirty. Lee fled a homestead up there, and if he is not dead now, he is munching grass somewhere on the shores of Clear Lake.

POLITICAL.

Senator M. D. Foley's Views on the Presidential Nominee of the Republican Party.

Senator M. D. Foley returned to Reno yesterday, after an absence of more than a month in the East, whither he went as a member of the Republican National Committee to attend the meeting of that body in Washington, D. C., to select the time and place for holding the coming Presidential Convention, particulars of which have already been made known. Afterwards he attended the Republican Club at Chickering Hall in New York City, and in a pleasant conversation with a *GAZETTE* reporter this morning, he says unqualifiedly that James G. Blaine can take the nomination for President if he desires it. If not, then the nominee will be some conservative Republican not yet settled upon. Senator Foley says that at the meeting in Chickering Hall, on every occasion when Blaine's name was mentioned it awakened the wildest enthusiasm among the delegates and spectators, who shouted themselves hoarse, and indulged in the wildest demonstrations of delight by clapping o. seats and tables and waving their hats until exhausted. No such demonstrations were made when the names of other probable candidates were mentioned, and every indication pointed to the high esteem in which Blaine is held.

Senator Foley says that Sherman is a strong man, but that in case Blaine declines, several others will make a strong contest for the coveted place and hence Sherman's prospect is problematical. Neither a demand for loyalty will command much strength in the convention as they are not considered available, although occupying high positions in the estimation of their party.

PERSONAL.

Senator M. D. Foley has returned to Reno.

Frank Golden, the Comstock jeweler, is in town.

Geo. Russell, of the firm of Russell & Bradley, is in Reno to-day.

Daniel Meyer, the capitalist of San Francisco, is visiting Reno to-day.

Wm. Fries, President of the Eureka Co., of Eureka, is an interested spectator of Reno's progress to-day.

Mr. D. J. Watkins, of Gillmer, Illinois, and formerly Mayor of Galena, Illinois, who has been visiting Johnny Fitzgerald, of the Depot Hotel, left here this morning for his Eastern home. Mr. Watkins is just finishing a long tour of inspection through New Mexico, Arizona and California, which has occupied his time for the past four months, and he expressed himself as being fully impressed with the belief that Reno has better prospects than any town he has visited, and he was pronounced in saying that if he was 20 years younger he would not hesitate to locate in Reno, believing that he could materially increase his store of wealth more rapidly here than elsewhere. This opinion will go a long way with his neighbors in Illinois, as he is known as a man of keen observation and reliable in all his statements.

The Oregon Swamp Land Cases.

The Portland *News* says: The case of R. F. McConaughy against J. M. Willey, Duke Bennett, Joseph Hill, Joseph Morrow Jr., Amos Boyd and S. E. Sloan came up in the United States Circuit Court the 3d instant. McConaughy obtained from H. C. Owen, of swamp land fame, a tract of land in the south end of Warner marsh, in the Lakeview district, Southern Oregon, and now claims a perfect title to the property under the provisions of the Swamp Land Act. The defendants, however, believing the land forfeited, each made a pre-emption entry and proved up on their claims, and then cut and stacked hay to the value of about \$6,000. McConaughy has issued a replevin to recover the value of the hay. The case hinges on the question of ownership of the land, and is interesting because it appears to be a contest between the formerly powerful swamp land ring and bona fide settlers.

The Rape Case.

The case of the State vs. Henry Henderson, charged with rape committed on the person of Stella Jones, was called in the District Court to-day before Judge Bigelow. District Attorney Evans represents the State, while Judge King appears for the defendant. At 3 o'clock a jury had not been secured, and the indications are that the jury-box will not be filled to-day.

Mount St. Mary's Academy.

The pupils of this institution all returned after the Christmas vacation in time to resume studies. The mid-year examination of the senior class took place last week with the most gratifying results. The second term of five months commences on the 1st of February. Perfect health prevails at the school.

A Sheep Thief in the Tolls.

Deputy Constable Nash is expected to arrive home, from San Francisco this evening, having in charge Louis Crutinger, who is wanted in Carson for the theft of a band of 2,000 sheep, the property of the wife of J. H. Borman, Justice of the Peace at Verdi. Crutinger, it is alleged, disposed of the band to a Carson valley sheepman for \$1,500, and succeeded in reaching San Francisco with the hordes. He was finally located in the Bay City, and arrested on a telegram to the authorities there. When arrested \$2 80 was found on his person.

Nevada Good Enough.

Quite a number of ranchers and stockmen of Nevada have, during the past few months, visited California for the purpose of investing in land. While many have bought land for special live purposes, not one, so far as heard from, proposes to live there, and saying on their return that Nevada is good enough for them. Among the most prominent who have thus expressed themselves recently are A. B. Miller, of Elko, and J. H. Thies, of Lovelock.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason none likes to take the medicines usually prescribed. HAMBURG PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. Beware! At all drug stores. J. J. Mack & Co., proprietors.

Ayer's Sarsaparilla is prescribed and recommended by eminent physicians, and is taken with perfect safety by old and young. Its cleansing and purifying effects are sure and speedy, and it is universally conceded to be the most effective of all blood purifiers.

A GREAT LOSS OF CATTLE FEARED.

The Latest News from the Ranges of the East—An Unparalleled Winter.

Regular Correspondence GAZETTE.

ELKO, Jan. 21, 1888.

EDITOR GAZETTE:—The snowstorm that commenced yesterday (Friday 20th) about 5 o'clock in the morning continued all day uninterruptedly in a slow kind of a lazy way, but towards evening it seemed to gather more force and energy and continued all night, being accompanied by some wind, during which time it deposited about from eight to nine inches of snow, continuing to snow up to about noon to-day, making the total amount of snow that has fallen about two feet for the season. The thermometer stood during the late storm 40 degrees above zero. So far as we have been able to learn, the storm has extended all over northeastern and southeastern Nevada. The trains east and west make about the usual time, but report deep snow between Elko and Terrace, a station on the C. P. R. R. From the meagre intelligence that I have been able to glean from those who have ventured to visit Elko on pressing business during the present storm, I know that it has been very severe, particularly north of the railroad, and great depths of snow fell in every locality heard from. I learn from Mr. Frank McPheters, proprietor of the Tuscarora stage line, that notwithstanding the severity of the weather and depths of snow on the road, he has been able to make his regular trips, carrying U. S. mail, express matter and such passengers as were brave enough to face the storm, through safe, being but little behind the regular schedule time. I do not wish to be considered an alarmist but candor as well as justice to the many readers of the GAZETTE impel me to state that it is no exaggeration when I say that the great stock interests of northeastern Nevada are suffering and in great peril. It is the opinion of the old and well informed conservative cattlemen, who have seen many hard Winters and experienced severe weather, that the present is unparalleled in the history of the State, and that there must be great loss in many localities, particularly among the large holdings who made no provision for feed or shelter; but apart from the intense suffering of the stock the laws of compensation comes to the rescue and in a great measure modifying the seemingly great loss that would be encountered by cattlemen by reason of the increase of the value of what is left, together with an abundance of grass for hay and pasture purposes. The exceedingly favorable Winters for the past six or seven years were gradually bringing on a crisis that was bound to come sooner or later. If the present Winter had been a mild one, the result would have been almost as disastrous as I fear the present one will be. Not only would stock of all kinds have perished for food and water, but the farmers would have little or no crops, and mining interests that depended upon water for its operations would have to close down for the time being.

I learn from Mr. William Smyles, a stock raiser and rancher, who was yesterday down from Deeth that the recent and present storms have driven from Marys river and northward all of the stock down on the line of the railroad, and they are in a starving condition. Many of them have frozen from sheer cold weather. Mr. Smyles is feeding, and hopes to carry through the most of his stock safe. All the small holdings, consisting of ranchers, have from 100 to 300 head of cattle in Starr, Lamolle and Pleasant valleys, have more or less hay and will be able to carry most of the stock through so far as feed is considered, but if the heretofore extreme and unheard of cold weather or cold wave that has passed over Eastern Nevada continues for any time, not only cattle but horses must be lost, as I learn that a bunch of horses, some nineteen in number, were frozen to death near Carlin on the extremely cold night of January 14th. These animals belonged to James De Wire.

I met Mr. Thomas Brumen, of Starr valley, yesterday. He confirms previous reports from that locality, and anticipates a great mortality among stock, unless there is an immediate and favorable change in the weather. Mr. George Ellmore, whose ranch is situated on the main Humboldt at the mouth of the North Fork, has quite a band of horses and cattle and is now feeding all he is able to find and drive in. He regards the present Winter as one of exceeding severity, being an old-timer and of large experience in stock raising, and anticipates a great loss of stock along the North Fork and its tributaries, and northward towards the Bruneaus.

I learn that Ben Payne, foreman for Mr. Withington, of Spring valley, reports that the snow in Spring valley, White river, has reached the depth of a foot and that all of the sheep have been driven southward towards Pahranagat valley.

R. Sadler, of Eureka, has a large band of cattle with some horses on his ranch in Huntington Valley, of this county. Charley Hale has also a large bunch of cattle—nearly 2,000 head—the same being about 45 miles south of Elko. Mr. Hale, on account of a slight indisposition, has not been able to visit his ranch and cattle for several days, but recent reports received from his vaqueros inform him that some parts of the range occupied by him and Mr. Sadler is covered with snow to the depth of two feet and over.

Both of these gentlemen have considerable bay, particularly Mr. Sadler, and they do not expect as great a loss as some of their neighbors, who are not so favorably situated. Mr. Mitchell, whose residence is in this valley, and also his summer range, lost his large band of sheep, owned by him, lying on the east side of the valley, before the first snow storm, drove his band of sheep south of Duck Water, and his precise locality is not now definitely known, but it is believed he is all right, as he is an old sheep man of large experience with a good knowledge of the country, and a keen and close observer of weather indications, and has been timely forewarned of the approach of the present inclement and severe season and gone southward for safety. Nothing reliable can be learned at present writing as to the condition of the stock or ranges, the severity of the weather or the depth of snow, or mortality among stock by the large bands owned by Moore & Co., Garret & Sons, of Bull Run; or of the large bands of the main Owyhee, of Byrke & Bro. and Horn, of San Francisco; or of Fisher & Hill, representing the Murphy estate; nor of the cattle scattered along the Snake or those occupying the Big Field and upon Raft river, but it is believed by those well posted as to the localities, including the little Salmon and Trout Creek occupied by Sparks & Thinnin, that a great deal of suffering must have been endured by stock and the opinion is that the loss must be fearful. There is however one existing cause for cattle in that region: The pasture was good and the cattle entered the Winter in fine condition; therefore, after all, the result of the Winter may be better than at present anticipated.

It is conceded by all of our ranchers that the present hard Winter has worked one good result—that of clearing the country of the rabbit pest, which has annoyed the farmers of this county during the past two years, and has already cost this county about \$20,000. The severe weather has driven the rabbits from the neighboring hills into town and they have become quite docile giving the dogs and boys rare sport.

I have been unable to procure any news from Ruby Valley at present, except that there is about two to two and one half feet of snow. No news has been received from the cattle driven into Winter quarters being about 7,000 to 8,000 all told. There are in Ruby Valley about 4,000 to 5,000 head that are being fed. This is about all the cattle held in that locality, other reports to the contrary notwithstanding.

WEDDING BELLS.

The Marriage of Charles D. Hill and Miss Hetty Coats To-day.

This afternoon at the residence of the bride's parents on First street, Charles D. Hill and Miss Hetty Coats were united in the holy bonds of matrimony, the Rev. Mr. Bradshaw officiating. Although it was designed to have the wedding ceremony as unceremonious as possible, the immediate friends and relatives of the bride and groom filled the house to overflowing, many of whom added to the color of the occasion by bringing with them substantial and beautiful presents which will serve by their presence to remind the happy couple of the time they pledged themselves to eternal fidelity and love. At the conclusion of the ceremony, which made them one, the guests present adjourned to the dining-room, where an elegant repast was done justice to.

Charley Hill and Miss Hetty Coats are substantially home productions, having lived here all their lives, and in wishing them God-speed on the journey of life, which for them is really but now commencing, the GAZETTE but echoes the sentiments of a host of friends throughout the sagebrush country.

The following friends and relatives were present: Mr. and Mrs. S. J. Hill, Mr. and Mrs. Walter Wallace, Mr. and Mrs. John Fraser, Mr. and Mrs. Rufus Kinney, Mr. and Mrs. Eli La Chapelle, Mr. and Mrs. Wm. Elliott, Mr. and Mrs. Henry Whistler, Mr. and Mrs. Wm. Webster, Prof. Ring, Miss Motley, Mrs. Ella Chamberlain, Mr. John Richards, Mr. Al. Lind, Miss Jennie McKernan, Mr. Alfred Hill, Mr. James Bradshaw, Miss Leola Ransau, Mr. James Bloor.

Great Saving in our Prices.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us, stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$20.00 bedroom suite.
